

O.K. Kids February News

WHO WANTS CAKE???

We are so excited to be offering the great taste of NothingBundtCakes to our community! These

petite cakes are packed with flavor and are a great idea to share with friends and families for dessert or just a small "thinking of you". These would also be great on your Easter dinner table for individual desserts or even in an Easter basket!

Sale will run from March 1st though March 12th, with delivery to the program on Monday, March 29th!

Proceeds will help us to provide program enhancements, fun activities, and provide reasonably priced child care for families in need throughout our community.

Thank you all for your support!

March 24th is a 1/2 day! Please sign up by March 17th, using the link here if your child will be attending!

Meet our staff. . .

Hi! My name is Kayla Walsh! I am 20 years old and I'm a junior in college at Suny Oneonta. My major is in biology with a concentration in pre-physicians assistance. I absolutely love working with all these kids each day and I always look forward to seeing them! I hope everyone remains safe and healthy, and has a good rest of the school year!

Hi, my name is Cameron Holzhauser. I graduated from Ichabod Crane in 2020 and I currently study Physical Education at Hudson Valley. I plan to transfer to SUNY Cortland after I finish my two years at HVCC. When I was in High School, I played both varsity baseball and basketball. I have always had an interest in sports and someday, I want to be a gym teacher and baseball coach!

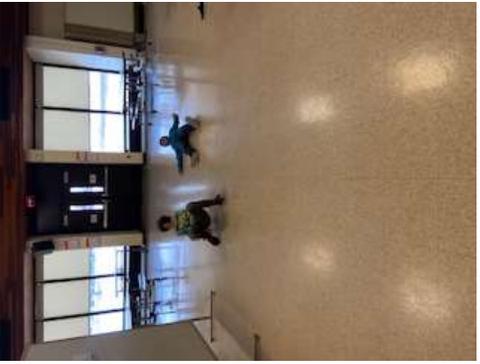

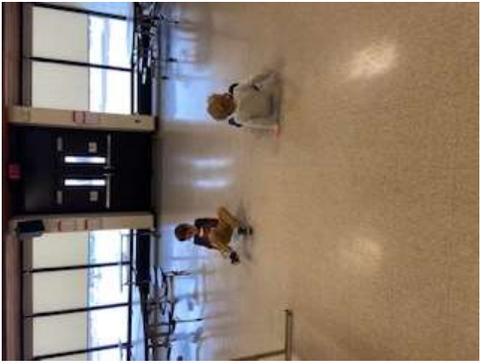

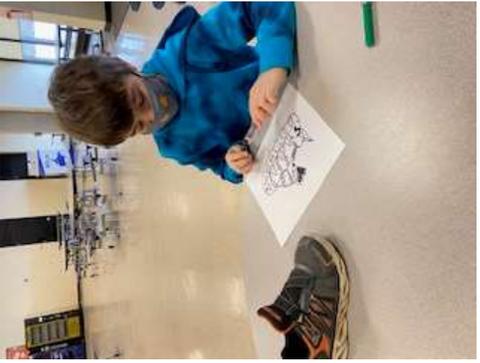

What's happening here. . .

This month our themes included doing some fun team bonding activities, making lots of pink and red Valentine's Day projects - including slime for some of the kids exploring things from around the world. Some of the kids played a what country does this flag belong to game! Some of the staff even threw in a mouth and toothbrush craft for dental health awareness! Brush those teeth kids!

The month of March will start off with book week. Toys may not be allowed to come in from home, but we welcome books for them to read, especially this week! We can't forget about the fun of St. Patrick's Day, with all of the shamrocks and leprechauns, which leads into our health and fitness week and then learning about the weather. The last week of the month is all about EASTER!. Yep! Easter is early this year, April 4th, but we'll all be ready! Stay safe and stay healthy everyone!

**February Vacation Club was a great week full of fun,
laughter and racing!!**

The children enjoyed a week of all different kinds of racing activities, including car races, crab walk races, running races, "racing" to win the minute to win it games, pom pom racing, racing to the treasure and so much more! They did many art projects, some of which included fingerpainting, designing their own race cars and super fast sneakers, bubble pictures and fuse beads (always a favorite!). The weather cooperated most days and they had fun playing outside in the snow, building, sliding and pretending to climb Mt. Everest! They have such great imaginations!
Thank you for sharing your children with us for the week!
